I am pleased to announce that Robert W. Dahl was selected to lead the *Manual of Instructions for the Survey of the Public Lands of the United States* project. Bob has over 25 years experience (30 in federal service) as a land surveyor with specific experience in execution, interpretation of the *Manual of Instructions for the Survey of the Public Lands of the United States*. This experience includes four years at the Washington Office where Instruction Memorandum are issued in regards execution, interpretation and policy are prepared in regards to surveys executed under *Manual of Instructions for the Survey of the Public Lands of the United States*. Bob has extensive experience in lecturing and instructing land survey topics at the National Training Center and at professional land surveying conferences and workshops. He was design team member and instructor of the Foundations of Land Tenure course. The *Manual of Instructions for the Survey of the Public Lands of the United States* is a primary reference relied upon by the public and private sectors. Bob has served on the BLM Headquarters Team for the Cobell v. Norton and received a letter of extraordinary accomplishment from the Secretary of the Interior for his work.

I would like to congratulate Bob on his selection!
